### **DETAILED ACTION**

1. The amendment filed 12-30-03 has been entered. Accordingly, claims 1-10 have been canceled and claims 11-29 have been added and pending.

### ***Information Disclosure Statement***

2. The information disclosure statement filed 06-18-04 has been considered.

### ***Drawings***

3. Figures 1-4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Also in the drawings, foreign language notations should be replaced with the English language notations. Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Allowable Subject Matter***

4. Claims 11-29 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record fails to teach methods and circuits for supplying power to

Art Unit: 2827

a load from among a plurality of loads in a semiconductor memory device. In particular, the method comprises: applying a first voltage to a first end of a conductor using a voltage regulator, the voltage regulator having at least one input and an output and being connected to the first end of the conductor at the output, and the conductor having at least one routing resistance associated therewith; and feeding back a second voltage from a second end of the conductor along a feedback path to the at least one input of the voltage regulator.

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited on Form PTO-892 disclose voltage supply circuits and methods for supplying power to memory cells.

7. This application is in condition for allowance except for the objections to the drawings.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
